## **FALL/WINTER Summary**

### **RECCOMENDATIONS**

- **An ordinance and a campaign to require residents to comply with an “alternate side of street parking” during a snow emergency. Most Washington D.C. neighborhood streets are small and narrow which does not allow for a heavy plow to shovel streets. An alternate side of street parking would require on odd-numbered days of the month, parking is permitted only on the odd-numbered side of the street. Likewise, parking is permitted only on the even-numbered side of the street on even-numbered days. Additionally, there should be as transition time between the first and second day of snow emergency.**
- **Residents need to be mindful of wheelchair and handicap accessibility by removing snow from wheelchair ramps.**
- **Coordinate with Metro, DPW, and DDOT to remove snow from around bus stops.**
- **Trash truck sanitation workers need to replace trash/litter cans as found after emptying them.**
- **Signage for litter receptacles: Not to be used for residential or commercial waste.**
- **Look into bringing Big Belly trash compactors into high density communities.**

**The Spring 2010 Clean City ratings are now being planned**
